

# CULTURAL TRANSFORMATION OF MIGRATION SOCIETIES AND DIGITAL LEARNING IN HIGHER EDUCATION ON ECEC

Invitation

to the Fourth Multiplier Event of the EU-Project

“Reflecting Cultures of Education in Early Childhood”

In modern Europe, education occurs in societies characterized by migration, whether it be in early childhood institutions or universities. The ever-changing and dynamic features of our society should continually be incorporated into the foundation of learning within educational institutions. This incorporation can encourage the diverse and multifaceted knowledge required by members of these societies in both professional and everyday life. From this perspective, the Erasmus project 'Reflecting Cultures of Education - Transnationality and Cultural Awareness in Early Childhood Education Programs (RECOdE)' extends an invitation to colleagues across various educational settings to share their experiences and join our endeavour to develop culturally sensitive and inclusive pedagogical practices.

The project started in 2022 and has had three Multiplier Events so far, each with a specific topic. The first and the second focused on creating a framework for developing and evaluating study programs with a special concern for critical cultural awareness. The third employed the insights from these events in developing a BA- and an MA- study module. The fourth and present Multiplier event will be concerned with developing a toolkit for higher ECEC-education with a special focus on digital learning opportunities.

As a participant, we invite you to take part in workshops where you present your own study modules, and where we discuss digital opportunities in education and how to make them culturally sensitive and inclusive for all students. The workshops are framed by experts who give impulses and insights.

The Multiplier Event is a wonderful opportunity to learn from others, share your experience, and build a network. We are looking forward to hearing from you. For more information, please contact Gunnar Magnus Eidsvåg ([gunnar.m.eidsvag@uis.no](mailto:gunnar.m.eidsvag@uis.no)).

Please express your interest in participation before 2024.01.15 by completing this quick form:

<https://recode-erasmus.com/multiplier-event-february-2024/>

The event takes place on campus in Stavanger, but there is an option to participate online.

Sincerely

For the organization team in Stavanger

Gunnar Magnus Eidsvåg, Lars Yngve Rosell, Mariella Asikanius, Sara Esmaeli, and Monica Drozdik

## Multiplier event in Stavanger 14/02-15/02

Day 1, Wednesday (room AR G-101)
